Corinto

Pianca SpA · Friday, March 31st, 2023

The elegant sculpted form of the Corinto table, entirely crafted in marble, is stunningly unique with its modern balance of material and geometry. Made entirely of marble, it is uniquely appealing with its fresh new balance of material and geometric design. The top and legs are made of marble slabs finished along the entire thickness. Subtle 9.5 mm overhangs, facing inwards, add movement and dynamism. The legs stand firmly on the ground to enhance the effect of material lightness and the vertical sections interlock softly and perfectly with the horizontal sections. An iron support frame that also allows quick, easy, correct assembly guarantees structural stability.
